Are Attempted.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
TARRYTOWN (N. Y.) June 5.—
Before trouble is expected to
arise when Alexander Berk-
son and 100 of his followers plan to
march on Tarrytown. According to
John Apple, who was here today,
Lincoln Stephens, Leonard
Agger and other leaders will be here
to morning to make a protest
against the arrest of Arthur Caron,
Berkson and ten others now
in White Plains jail. The agitators
will be brought here for trial at 10
o'clock before Police Justice W. B.
Henderson.

Although the prisoners stated that
they wanted no counsel, it became
known this afternoon that they would
be represented by Justice Sheffield
of New York. He will ask for an ad-
journment so he can prepare papers
to have the case submitted to the
grand jury. It was said tonight that
the request would probably be de-
nied and sentences would be im-
posed.

Mr. Agger, F. E. Woods will appear
to promote the cause and
other leaders and his deputies will be
in the case any demonstration
will be made.

According to Apple, who repre-
sented the prisoners, they were
arrested on Third Street.

MILLENNIUM FOR A DAY.

**Wives in Taft to Overlook
Hubby's Delinquencies for
Twenty-four Hours.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
TAFT (Cal.) June 5.—Chief
of Police Ed Eiland has been
instructed by Mayor Harry
Hopkins to personally visit
every housewife in Taft and urge
her to be lenient with her hus-
band on June 22, "Father's
Day." According to a proclama-
tion issued by the Mayor, fa-
ther can go out with the boys,
drop his week's wages in a
poker game or smoke in the
parlor with his feet on the pi-
ano on June 22 if he desires.
As a result many previously
meek fathers have been going
home in a more joyous mood.
It was for the purpose of ex-
plaining matters thoroughly
that the Mayor instructed the
Chief to visit the wives per-
sonally and inform them.

KANSAS NEEDS ARMY OF WORKERS.

**OVER SIXTY THOUSAND MEN RE-
QUIRED TO HARVEST BAN-
NER WHEAT CROP.**

(BY A. P. NIGHT WIRE.)
TOPEKA (Kan.) June 5.—Kansas
needs 60,000 men, 6175 extra
and 3360 extra cooks to harvest its
wheat crop this year, according to
an estimate made public today by W. L.
O'Brien, State Labor Commissioner
and director of the free employment
bureau. His estimate is based on the
reports of "correspondents in every
county in the State.

PROBLEM OF UNEMPLOYED.

**National Legislation Urged Before
the House Labor Committee by
Delegation of Sociological Workers.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, June 5.—National
legislation to deal with the problem
of unemployed labor was urged be-
fore the House Labor Committee to-
day by a delegation of sociological
workers. The delegation supported
the Murdock bill for a national em-
ployment agency, and the MacDonald
bill to create employment agencies at
various points throughout the country.
It is expected the committee will re-
port some legislation along this line at
this session and will place it in the House
next winter.

INDIANA CHURCH WRECKED BY STORM.

**EVANVILLE (Ind.) June 5.—A
thunderstorm tonight caused damage
amounting to more than \$10,000. The
rain was the first in four weeks and
greatly benefited crops.**

The first-avenue Presbyterian
Church was wrecked at a loss of
\$10,000.

WITH SNOWSTORMS RAGING IN NEVADA.

**RENO (Nev.) June 5.—Snow-
storms, accompanied by sudden drops
in temperature, have been raging
several points in Nevada today.**

In Reno and vicinity slight snow flurries
began at 1 o'clock this morning and
continued until noon, and tempera-
tures as low as 27 deg. prevailed.
Heavier snowfalls were reported in
the mountain districts and at Winnem-
ucca and Gardnerville.

Reports from along the line of the
Nevada, California and Oregon Rail-
way say that the storm, which began
far north as Lakeview, Or., three
inches covering the ground at that
place.

Practically no damage has been
done to crops in this section.

SCORES OF CHILDREN OVERCOME BY HEAT.

**OMAHA (Neb.) June 5.—Between
fifty and sixty school children, mostly
little girls, were overcome by the
heat this afternoon while partici-
pating in the public school plays festival
which was held at Ft. Omaha. All
will recover. The day was hot and
sultry and the children, without hats,
were forced to sit in the hot sun for
more than two hours. Before the
end of the exercise they were going
down like ten pins. Those overcome
were removed to the fort hospital by
high school boys with stretchers and
were attended by army and city phy-
sicians. Ambulances and private au-
tomobiles were utilized to remove
them to their homes after they re-
covered. Cent thousand children took
part in the play.**

HEAT WAVE LINGERS IN THREE STATES.

**KANSAS CITY (Mo.) June 5.—
Kansas, Oklahoma and Western Mis-
souri again sweated today under the
heat wave. Sedalia, Mo., reported 94
deg., and St. Joseph 93 deg. In Kan-
sas City the maximum was 90 deg.,
one degree lower than yesterday.**

In Kansas records for the year were
set at Manhattan with 97 deg. Few
prostrations were reported.

THE HEAT IN ST. LOUIS.

**ST. LOUIS, June 5.—There was no
relief for St. Louisans today from the
heat wave, the government thermom-
eter reaching a maximum of 94 deg.
at 3 o'clock. The forecaster said the
heat wave probably would be broken
tonight. Several prostrations were re-
ported and the schools were again
closed.**

CYCLONE IN IOWA.

Wisconsin.**

**Thousands of Dollars Damage
Done in Indiana by
the Wind.**

**Scores of Children Overcome
by Heat at a Festival
in Omaha.**

**Snowstorm Extends All the
Way from Reno, Nev., to
Lakeview, Or.**

(BY A. P. NIGHT WIRE.)
OSPER (Iowa) June 5.—A cy-
clone swooped down upon the
farm home of James Allen late
this afternoon, seriously injuring Mrs.
Neth Hoogterp and her three chil-
dren. A farm hand by the name of
Sorenson is missing.

A Chicago and Northwestern pas-
senger train missed the cyclone by a
few minutes. It was stopped by
wreckage along the track. The storm
followed a day of intense heat, and
came up suddenly. It moved in a
westerly direction, cutting a swath
several hundred yards wide.

WISCONSIN RIVER A RAGING TORRENT.

**NEILSVILLE (Wis.) June 5.—
Fear of a repetition of the Black
River Falls disaster of three years
ago has alarmed residents of towns
along the Black River, which tonight
is a raging torrent. Reports of to-
day's damage show that several
bridges have been washed away, small
buildings razed and the river has
risen twenty feet since morning, ac-
cording to reports.**

Heaviest damage has been done at
Greewood, thirty miles north
of here, where the Municipal Light
and Power Company's dam was swept
from its foundation and small build-
ings wrecked. The water in the street
is several feet deep.

PLANT LEAVES CATCH GOLD.

**Placer Miner to Utilize Won-
der of Nature in Sluice
Boxes.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
TAFT, June 5.—Augustus
Schwartz, a placer miner, with
claims in northern Ventura
county, came to Taft, sixty-
eight miles, driving over moun-
tains and desert in a mule team
and using baling wire for har-
ness, to gather leaves of the
famous gold spot plant which
is said to act as a magnet upon
gold dust. It is the intention
of Schwartz to use the leaves
of this recently-discovered
plant in the bottom of the sluice
boxes on his claims in order
to catch the virgin gold as it
is washed down from the
mountain side with the mud
and gravel brought away by
hydraulic pressure. In the past
Schwartz has been using car-
pet, but hearing of the famous
gold spot plant and the effect
the leaves had on gold, he de-
cided to abandon the old meth-
od and try the new. The wag-
on he drove here in is of
home-made construction and
his harness consisted principally
of baling wire and rope.

MOTHER KIDNAPS SON IN AUTO.

**TAKES HIM FROM PUEBLO
SCHOOL IN CLOSED CAR.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
PUEBLO (Colo.) June 5.—Mrs. M.
J. McGrath of Long Beach, Cal.,
was arrested and taken from a Santa Fe
train this afternoon at Ash Fork, Ariz.
She had her 10-year-old son,
George L. Ziller, whom Mrs. McGrath
kidnaped in an auto from a Pueblo
school yesterday.

The woman was taken to Prescott
and is being held there in the custody
of the sheriff. Requisition papers
were issued today for her return to
Colorado for trial on a charge of kid-
naping.

Mrs. McGrath, the former wife of
George W. Ziller of Pueblo, was aided
in the kidnapping by her aunt, Mrs.
Roy Palmer, who is a resident of the
city. Mrs. Palmer is a street car
conductor in Long Beach. McGrath
was named in her first husband's di-
vorce suit. She was auditor of the lo-
cal street car company.

There was a long legal fight over
the boy, the father finally being
awarded custody. Mrs. Palmer, who
Mrs. McGrath arrived here secretly.
The kidnapping of the boy was drama-
tic. Waiting in an automobile the
mother had her son, who was in the
school at recess and tell him she
wanted to talk with him. Mrs. Pal-
mer walked around a corner with the
mother and her son, who was in the
school at recess and tell him she
wanted to talk with him. Mrs. Pal-
mer walked around a corner with the
mother and her son, who was in the
school at recess and tell him she
wanted to talk with him.

One here saw the mother and
the boy enter the train, so for a time
it was believed the boy must be in
the city. However, telegrams were
sent all along the Santa Fe line ask-
ing that the couple be detained.
Officers will leave here tomorrow for
Prescott. Mrs. Palmer, after being
detained for a short time, was re-
leased.

VILLA VS. NATERA.

**Says Appointment by Carranza Was
Entirely within the Province of the
Rebel Chief.**

(BY A. P. NIGHT WIRE.)
CHIHUAHUA (Mex.) June 5.—
"The creation of the Central Division
of the Constitutional army and the
placing of its command in the hands
of Gen. Panfilo Natera, are matters
entirely within the province of Gen.
Carranza, commander in chief of the
Constitutionalist army," said Gen.
Villa today when asked whether he
intended to object to the move.

"I have always been ready to serve
and have always served my country
as best I could, and will continue to
guide my actions by what I consider
to be the best interests of Mexico and
its people," continued Gen. Villa. "I
will say that I am ready to make
any sacrifice for my country, provided
always that making such sacrifices
will aid the greater cause for which
I have been fighting."

ERUPTION ON SANGUIN.

**Several Volcanoes Become Vio-
lently Active on Dutch Island South
of the Philippines.**

(BY PACIFIC CABLE.)
BATAVIA (Java) June 5.—A vio-
lent volcanic eruption occurred today
on the Dutch Islands of Sangiu, 140
miles south of Mindanao in the Phil-
ippines. Several volcanoes were in-
cend, and a heavy rain of stones and
ashes from the mountains, over-
whelming forests and cocoa plan-
tations. At the same time a heavy
rain of stones and ashes from various
craters fell over the entire island.
Official reports do not mention loss
of life, but register the destruction of
100 houses.

Sanguir is the largest of the group
known as the Talaut Islands in the
Celebes Sea, about 100 miles to the
east of British North America. De-
structive outbreaks of Genong Abu,
the principal volcano on the islands,
occurred in 1711, 1812, 1856, 1882 and
1892.

His Capture by Mexicans Expensive.

**John Reid Silliman,
Vice Consul at Saltillo, who was imprisoned by Federal soldiers under Gen.
Maas and his headquarters looted. The loss of the cipher, which is still
in the hands of the Huerta government, absolutely destroys its value as a
means of secret communication and a new one will have to be made.**

STATE DEPARTMENT CODE MUST BE MADE OVER.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WASHINGTON, June 5.—It is ad-
mitted in the State Department
that the capture of Vice Consul John
Reid Silliman, who arrived in Wash-
ington today for a conference with
Bryan, and the looting of the United
States Consulate at Saltillo by Hu-
erta's soldiers, under Gen. Joaquin
Maas, Jr., will cost this government
several thousands of dollars. But the
outlay will give the government a new
cipher code.

Among the papers and documents
stolen by the Mexican Federal sol-
diers from the Consulate was a copy
of the official code book, containing
the secret cipher used for the trans-
mission of confidential messages be-
tween the State Department and its
agents. The book is still in the hands
of the Mexicans.

The cipher is of a kind which de-
pends upon a secret agreement, ar-
ranged between the sender and re-
ceiver, and can therefore be broken
so that the possession of the code
book without the secret agreement
as to its use is of no service. But
there are experts, who, having pos-
session of the basis of a cipher and
a sufficiently long message written
in it, can work out the secret. The
loss of the code book has consequen-
tly destroyed the value of this cipher
and the government will have to pro-
vide itself with an entirely new one.
State Department officials say the
code has been in use for more than
twenty years, and for a long while
the department has been anxious to
obtain a new one. There has for some
years been a suspicion that the code
is already in the hands of some for-
eign government.

June 5.—Alleged visits of Rapp, Jr., to the apartment of Katherine Dean of New York as co-resident in the rooms from Rapp by Mrs. Heink, were detailed today in depositions read in court. They were made at all hours of the day and continued until midnight, according to the affidavits of Katherine Dean and Mrs. Heink, sworn to by detectives who followed them to a New York apartment house, by the janitor of the building, the landlady and by Arthur Heink, Rapp's messenger, who said the pair enter a room on a February night.

Heink, a detective, said he saw Rapp in December, 1913, at the time I saw Rapp he was on Thirty-first street and to No. 37 Home street, neither of them came out.

TREAT ENGINEER TELLS OF COLORADO PROBLEM.

Designer of Assuan Dam Declares Silt Main Factor in River Control.

After Seeing Irrigation and Reclamation Work of Southwest, Sir William Willcocks, Consulting Expert for Secretary of Interior, States It Is National Problem, to Be Attacked Manfully.

Intervened parables and seemingly evasions, Sir William Willcocks, K.C.M.G., designer of the Assuan dam and rated perhaps the greatest irrigation engineer in the world, yesterday on a tour of the Colorado River, declared as acting consulting engineer to the Secretary of the Interior, that a simple solution for the problem of effectually controlling the waters of the Colorado River, had not returned from a visit to the Colorado.

"The trouble," he said, "and the trouble is that the Colorado River is a silt problem. It is a silt problem, your big problem, and there is an answer to every problem, as to every trouble, and it is usually the same old story."

Grand Valley and Uncompahgre Valley projects of Colorado, the Lake Walcott reservoir, Minidoka and Boise projects of Idaho and perhaps the Shoshone of Wyoming. This programme is subject to changes, however.

According to his schedule, Willcocks will arrive in Washington, D. C., the last week of June and will report immediately to the Secretary of the Interior. He expects to sail for England about July 1, on his way to his home at Cairo.

With his reporting to the Secretary of the Interior, Willcocks expects to terminate his life work as an engineer. He is now engaged on his memoirs and this work will occupy his time for some years. These memoirs will unfold a story of a man who was born in 1852 on an irrigation canal in India, the son of a British army officer, and who was created a Knight Commander of St. Michael and St. George in 1903 for his distinguished achievements in enlarging the world's arable area.

Less heralded abroad than his achievement as the designer of the Assuan Dam were his great works in connection with the Tigris and Euphrates and his Indian flood-control plans.

W. A. Ryan, member of the United States Reclamation Commission and controller of the body, is Willcocks's sole traveling companion. F. H. Hanna, supervising engineer of the Reclamation Service, with headquarters at Phoenix, is accompanying Willcocks through the Southwest, while W. H. Code, former chief engineer of the Indian Service, and L. C. Hill, consulting engineer, and D. W. Murphy, former drainage engineer of the Reclamation Service were his companions in the Imperial Valley investigation.

Chief Engineer Mulholland of the water department was the distinguished visitor's host yesterday on an automobile trip along the aqueduct as far as the Dry Canyon siphon. Willcocks expressed wonder

that this great \$500-foot siphon does not show a wet spot or an indication of strain at any point.

The Southern California Association of Members of the American Society of Civil Engineers gave a banquet in honor of Willcocks last night at the Hotel Clark. Willcocks told of some of his experience in the Far East, while Col. Holabird told of the "dangerous, dreaded, and yet paradoxically fascinating problems" presented by his work as receiver for the California Development Company.

Willcocks will be taken on an automobile trip to the neighborhood of Azusa today to view the handling of irrigation waters by one of the oldest systems in the Southwest. He also expects to visit some of the points of interest near here by automobile. While here Willcocks is staying at the California Club.

BETTER MAIL SERVICE FOR IMPERIAL VALLEY.

THE phenomenal growth of Imperial Valley and the increase in all forms of business activity in that section are shown in a report being prepared by Postoffice Inspector C. D. Lowe on a trip just concluded to that section. This was for a readjustment of postal affairs there to meet the demands of an increased population and the rapid settlement of the country by home makers.

Inspector Lowe in his report will recommend the establishment of free delivery in El Centro, beginning July 1. This will mean the employment of seven clerks in that office, which has been in existence but nine years. The receipts for the year ending March 31, last, showed an increase of 54 per cent. over the figures of the corresponding period ending March 31, 1913. This will also mean that the management of the office.

Inspector Lowe will also recommend that the office at Hemet, Calceco and Holtville be made second-class, thus increasing the salary of the postmasters to \$2000 and giving each place three clerks. The

HOW TO SEE LIGHTED WAY.

All Roads in Fine Condition. Special Rates on the Railway.

City, county and State officials will attend the celebration of the completion of the lighted boulevard system at Van Nuys and Owensmouth today in special cars. Excursion rates will prevail on the Pacific Electric Railway, with stopover privileges and including trips between Van Nuys and Owensmouth.

All automobile roads between this city and the scene of the celebration are in excellent condition. From this city the route is either by way of Wilshire or Sunset boulevard, turn in Hollywood at Cahuenga avenue or Hollywood Hotel, then to Van Nuys by way of the new State highway and South Sherman way or through La Brea and East Sherman way. Automobile club signs indicate the route all the way.

The celebration is given by the people of San Fernando Valley, who extend a cordial invitation to everybody to come. Everything is free. The Automobile Club of Southern California has issued invitations and maps of the routes to more than 6000 members.

APOTHEOSIS OF JACK JOSEPH.

Fireman on the "Lark" Falls Heir to a Fortune.

Here's a Regular Little Old Castleman Story.

Rich Uncle Dies and Leaves Him All the Money.

When old Mike Kildary pulls the Lark out of the Arcade station bound for San Francisco tonight, the man with him in the engine cab will not be Jack Joseph Henderson, 24 years old. He may be there, not in his jumps, just to wave "Good luck to you, Mike," but he has other things to occupy his attention. The principal of these is his sudden inheritance of an estate valued at \$165,000, and left him by an uncle in Brooklyn, of whom he had never heard. It sounds like an out-worn plot, but this time, according to the telegram received by Henderson in Los Angeles day before yesterday, it is true.

Even before the telegram arrived, it had been a lucky week for Jack Joseph. For three months he had been firing the old Oxnard local, not an enviable job for a stout young fireman. Old Mike Kildary had been

Jack Joseph Henderson.

Who was made fireman on the "Lark" and fell heir to \$165,000 all on the same day. Of course, it was a rich uncle, of whom he had never heard, who died and left him sole heir.

studied, then he put it down and walked to the window. Later, he returned to it, and read it again. There it was:

"You have been made sole heir to the estate of your uncle, George J. Rooney, No. 1241-3 West street, Brooklyn, who died recently. The estate includes \$165,000 in money and property valued at \$125,000. Kindly wire instructions."

[Signed] W. T. Jerome.
A hush came to Jack Joseph. He looked up, he says, but couldn't see. One second he pictured himself riding in a limousine automobile as big as a Pullman car, and the next he thought it a joke. He had never heard of his uncle, the brother of his stepfather. He learned later that he was a bachelor, and there was no other line of descent.

For four hours he sat in the room, with his good fortune. Hot and cold he felt by turns. The landlady came to the door, and announced dinner. He said that he didn't want any. An hour later she came with some thick gruel.

"'Twill be good for you," she said. "I can't eat," he answered. "Poor boy, what a terrible terrible news, and you so happy!" And she told other lodgers of the misfortune of poor Jack Joseph.

That was Thursday. He took a long car ride that night, and then walked for miles and miles. It was late when he finally reached home, and he went to bed. And as he slept, he

SURPLUS BRIDE RETURNS HOME.

Leaves Haven Bought After Bigamous Marriage.

Asks Forgiveness of Father; Judgment Suspended.

Too-Much-Married Husband Pleads Drunkenness.

Reatha Watson went home last night and tried to explain to her father, W. W. Watson, why she had become a principal in the second sensational marriage of Lawrence Converse, confessed bigamist. She was tired and crying. At her right was an attorney—her attorney, she calls him. On the other side was an old friend of the family, formerly a neighbor.

"Well, dad," she said, "I'm back home."

"You're back," said the father, "but I don't know yet whether it's your home or not."

The girl, whose beauty has made her, in a sense, a celebrity, went up to her father, threw her arms around his neck, and began to sob.

"I'm a naughty, naughty girl," I know, dad, and I don't want to hurt you, but won't you please hug me just as if I were a little kid again?" It was at the Watson home, No. 229 San Jose street, Burbank, that the girl appeared and ended the speculation of the authorities as to her whereabouts.

Her father refused to tell where she had been last night, reporting only that she had been with friends.

He said that Reatha and Converse were married Tuesday afternoon and that they stayed at the Watson home that night. Converse, he said, slept in a front room, while the girl occupied a rear room, and he denies that they ever lived together as husband and wife.

Converse, Watson said last night, got up early Wednesday, explained that he had an important business deal that he must conclude that day, and went downtown. Several hours later, Reatha followed him.

FRIENDS TOLD HER.
According to the explanation the daughter made to Watson, she did not learn that her husband was married until she talked with some friends. It was they that informed her of Converse's family.

Then, she said, she became frightened and feared that when her father learned of the escapade he would turn her over to the authorities, so she fled to the home of the old neighbor in Los Angeles. Watson refused

THREE CITIES WELCOME BUDS.

Portland Rose Queen With Retinue Guests.

City Accepts Bush Planted by Fair Hands.

Oregon Festival Boosters Reign for a Day.

Three cities—Los Angeles, Pasadena and Long Beach—gave a royal welcome yesterday to Queen Thelma of the Portland Rose Festival and her retinue of eleven fair attendants. The visitors from the north, bearing roses and a message of good fellowship, were welcomed with song, decorated with badges, feasted, taken out for a motor ride and sent on their way rejoicing.

The party was composed of the following: Miss Thelma Hollingsworth, queen; Mrs. Dave Campbell, chaperon; Mrs. W. R. Strandberg, publicity representative; Phil H. Bates, manager; and maids, Misses Hazel Hoyt, Alice Husby, Helen Fitzgerald, Estelle McCall, Lina Osterwald, Helen Miller, Sadie E. Vigna, Leola Martin, Anna Tierney, Beulah Barringer and Mary McKinnon.

The royal party arrived at the Salt Lake station at 7 a. m. and was met by a committee from the Chamber of Commerce, of which John S. Mitchell was chairman. Just to make the visitors feel at home, each was decorated with a souvenir button.

After breakfast at the Alexandria, the smiling maids were waited upon by another committee of the chamber, and further decorated with yellow badges with the printed words, "Los Angeles-Portland." During this ceremony, which was performed in the palm room, the Chamber of Commerce quartette gave a song composed especially for the occasion.

Next a Portland rose bush was planted in front of the Exposition building at Exposition Park. The young women thought that it was lovely that Los Angeles had a Mayor named Rose to assist in welcoming them and take part in the planting. The Mayor accepted the plant on behalf of the city. Queen Thelma spoke for the chamber. Afterward, Mrs. Bowen told of the movement to beautify Los Angeles. Bates spoke for the visitors.

ROYAL THANKS.

Immediately after the Portland rose had been planted, duly accepted and made welcome, Queen Thelma issued the following proclamation, which was publicly read:

"By the queen in council with her princesses, her cabinet and the people of the Kingdom of Rosaria:

"By the grace of God, by virtue of

Queen of the Roses a Rose Herself.

Miss Thelma Hollingsworth,

Queen of the Portland Rose Festival, who spent yesterday in this city with her imperial court. The girls are stirring up enthusiasm all along the Pacific Coast for their great feast.

her title, by aid of the Prince of Rosaria, defender of Portland as the home of the rose, Thelma, Queen of Rosaria, hereby proclaims:

"That upon our royal visit to the city of Los Angeles on June 5, your queen and her princesses of Rosaria were entertained in a manner befitting the high position conferred by the subjects of the realm; that the hospitality was especially generous and the acts performed full worthy of that spirit of brotherhood which pervades the Pacific Coast. It is especially gratifying to the royal mind to see the people of the Coast ex-

plify the spirit of hospitality and extend to the stranger a welcome as warm as it is hearty.

"To the Los Angeles Chamber of Commerce, a loyal subject of the principality of Los Angeles, and to each member of its organization, we desire especially to extend the gratitude of our royal heart for their most generous attention to our wants and wishes during our stay in their city. In recognition of their chivalrous attitude, we desire to confer upon them a token of the appreciation of the royal will by inviting them to come in June, when the rose time is the most pleasing for a good time in the city of Portland. In the year of our Lord 1914.

"Signed by her royal majesty, Thelma, queen of the kingdom of Rosaria.

The persons present at the planting ceremony included President Cole and Secretary Wiggins of the chamber, and women representing the Los Angeles Ad Club.

Representatives of the Pasadena Tournament of Roses and the visitors at the Alexandria at 11 a. m. and were escorted to the Crown City, where they were entertained at luncheon and given a view of the city from motor cars.

Returning to Los Angeles in the mid-afternoon, the royal guests were taken to Long Beach in a special car over the Pacific Electric, where they were welcomed by representatives of the Long Beach Chamber of Commerce, taken for a tour of the city and entertained at dinner at the Virginia. The visitors returned to Los Angeles and left at 8 p. m. for San Francisco.

Not in Confidence.

TYPIST FORCED TO TELL STORY.

DAWSON'S STENOGRAPHER CAN NOT KEEP HER SECRETS.

What Employee of McKelvey and Stevens Learned Is Admitted as Evidence as Not Being Privileged, Says Judge Welborn of the Federal Court.

The case of the government against Charles S. McKelvey and W. H. Stevens charged with using the mails in furtherance of a fraudulent scheme, was saved by Judge Welborn in the United States District Court yesterday by his ruling, admitting the testimony of Mrs. Jennie Weinstein, who for seven years had been the stenographer of McKelvey.

The court held that the communications between the witness and Stevens and McKelvey could not be deemed as privileged in criminal practice in the Federal courts.

The importance of the evidence of the stenographer was shown when Mrs. Weinstein identified letters signed by Stevens, and addressed to W. H. Evans of Monrovia and Kyle MacBratney of El Centro as having been written by herself at the request of Stevens. She said that McKelvey had not seen them, to her knowledge.

The testimony testified that McKelvey had dictated the complaints against Evans and MacBratney, and also that of Evelyn Quick against another man, but it was her impression that the suit never had been filed. She testified to having seen Stevens pay McKelvey a sum of money one or two times, but on cross-examination admitted that it was her impression that it was in payment of Stevens's share of the running expenses of the office.

Oscar Lawler testified to the disparaging remarks McKelvey made in regard to the character of Irene MacBratney-Brown-Levy and Cleo Helen Barker. One of the features of the day's evidence was the testimony of Mrs. Brown-Levy in regard to her trip with Stevens to Santa Ana to try to locate a man who was afterward recognized as W. H. Evans of Monrovia, but who had introduced himself to the girl as "a judge from Santa Ana." Stevens and the girl also went to San Francisco in search of evidence, Stevens paying the bills, the testimony ran.

Mrs. Elizabeth Lacey, mother of

Mrs. Brown-Levy, said she had called frequently upon Stevens with her daughter and Cleo Helen Barker, on the matter of bringing actions against certain men. The names of W. H. Evans and Kyle MacBratney were mentioned. Stevens insisted, she said, upon the name of every man who had been in the habit of visiting the Jocko apartment, and "he will do the rest," Stevens remarked, alleged the witness. Mrs. Lacey gave a humorous account of Stevens and her daughter going to Santa Ana looking for "the judge," how they stood around all day and did not find him, and how she the next day made the trip to Santa Ana with Stevens on the same quest.

"We found that the judge was W. H. Evans of Monrovia, and no judge at all," said Mrs. Lacey.

Mrs. Lacey created a sensation when she declared that when Stevens collected \$100 from a man, he gave her \$100 of that sum; later on, when Stevens got into trouble, he gave Mrs. Lacey his note for the other \$100, and the note was placed in evidence.

Peaceful Melodious Gathering.

MUSIC TEACHERS' JOYFUL MEETING.

RECITAL OF ORIGINAL WORKS BY VERNON SPENCER.

Anthony Carlson, Mme. Catherine Shank and Oscar Selling Interpreters of Spencer Vocal and Instrumental Compositions—Choral Society Concert.

BY HECTOR ALLIOT.

Unlike many of the preceding meetings of the Music Teachers' Association, the one held last night at the Gamut Club was peaceful and even decidedly cheerful.

To make the reunion really symbolic of June, roses only were wanted in connection with the musical program. The dark and threatening clouds of law suits, attachments and the rest, in connection with the unpaid bills of the People's Orchestra, originally guaranteed by the association, have melted away.

The members are paying the per capita assessment of \$1 and the leading musicians are liberally contributing \$10, \$20 and \$25 each towards the outstanding bills. Many of the creditors have shown an admirable spirit and have voluntarily reduced their bills, some of them donating the balance due in their entirety.

Now that the crisis, which came very near disrupting the association, has passed away, everybody is happy and the organization will, no doubt, become much stronger after having successfully through this experience.

The business part of the meeting came in last, to prepare the spirit an excellent program was first presented. It was composed of fourteen numbers, written by President Vernon Spencer.

While Composer Spencer has a very poor opinion of the humble local reviewers, I am obliged, and that he, with his opinion of Vernon Spencer as an able composer.

His "six poetic pieces for children," played by himself at the piano, were most acceptable. Anthony Carlson sang five songs for low voices. There was a lot of money in it. "Interstad" being especially beautiful, both in composition and rendition.

Other numbers of the program were given by Mrs. Catherine Shank, who did ample justice to the very short "Rou Art So Like a Flower," "Night Gleanings" and "Burlington." "Burlington" was probably the best of that series, a brilliant and melodious effort. In "At the Cradle," a new treatment of the class of songs, was very interesting, but showing that the composer is not thoroughly equipped with the essential practical requirements of nursery music.

Oscar Selling, violinist, with piano accompaniment, gave a delightful interpretation of "Scott Lullaby" and "Valse Fugitive," which I was about to describe as the best composition of the group. With each number Mr. Spencer explained why he wrote the composition, when and how, giving an interesting insight into his method of work, which shows always excellent musicianship. Because of these fine qualities much of the criticism against the group, and his intense militancy for the recognition of his compositions, and exact musical details in the daily press, may be overlooked in order to agree that he is an able and very learned musician.

The exhibition was held in the auditorium, and the tasteful arrangement of flowers and of the exhibit itself made a pretty picture. The orchestra, made up of the members of the First Presbyterian Church, attracted quite an audience last evening.

The director of the society was Frank Shackelford, and the accompanist Miss Fannie Price.

Selections from Gounod, Barby and Rossini were first heard, followed by Mrs. Grace Bishop played a piano solo, "Pierette," of Camille Saint-Saens, in a very charming manner. The singing of several of the ancient folk songs of Sweden; Miss Jennie York recited Tennyson's "Hughes Song," followed by two numbers by the chorus.

Rev. Edward Campbell sang Robyn's "Answer," Frank Shackelford "In Old Madrid," T. R. Kelley played "Perfect Day," solo, cornet, and the evening was concluded by "The Radiant Morn Hath Passed Away," of M. J. Davis.

The success of the first recital will no doubt induce the Choral Society to continue its interesting work, and the members of the group, after the encouragement received last evening.

GLENDALF, June 5.—A mass meeting of citizens voted 98 to 46 to night that the City Trustees recall the water vote.

EVENTS IN LOCAL SOCIETY.

Mr. and Mrs. Charles O. Nourse of No. 16 Berkeley square, announce the engagement of their daughter, Miss Virginia, to Louis Cass, son of Mr. and Mrs. A. B. Cass.

The interesting bit of news was told to a few friends yesterday, who had been asked to the Nourse home as a farewell courtesy to Miss Katherine Banning, who will leave soon for Europe.

For Bride-elect.

Mrs. Philip Colby entertained recently with a luncheon, followed by a musical afternoon, the feature of which was the surprise boudoir show presented to Miss Helen McCutchan, Corcoran and Scotch broom, with California poppy place cards, carried a yellow color motif for the luncheon table. The musical program was presented by Miss McCutchan, contralto solo; Mrs. Tatum, soprano; the hostess, soprano; Miss Georgia McDonald and Mrs. McDonald, piano selections; Mrs. McDonald, soprano; Mrs. W. J. Wren, alto; A. L. Markwell, Mrs. Frank Murphy, Mrs. Allen Culver, Mrs. J. Justice, Mrs. George Burkhardt, Mrs. Mamie Young Moore, Mrs. Harrison Moore, Mrs. A. L. Markwell, Mrs. C. C. Tatum, Miss Georgia McDonald and Miss May Elsie Hyer.

Mrs. Walter J. Wren, No. 1110 West Seventh street, and Mrs. Robert E. Schroeter, gave an auction bridge tea, Wednesday, at the home of the former, honoring Miss McCutchan, and Thursday Miss Mellicent Virden entertained with a theater party. Yesterday afternoon Mrs. Hoyt Mitchell and Mrs. de Roulet entertained with a bridge tea at the family home, No. 647 Serrano street, while this afternoon Miss McCutchan will give an auction bridge luncheon given by Miss Mamie Young Moore, at her home, No. 1001 South Hoover street.

HER SHOE HER BANK.

But She Forgets It Is and Takes Footgear to Be Mended—Now Says Shoemaker Has Cash.

Mrs. Clara S. Augustine of No. 1201 Tennessee street, does not believe that a stocking is a good place to keep money. Neither does she believe—now—that one's shoe can be made to do service as a bank with safety. But this latter change of mind is only recent.

According to the story to which the city prosecutor listened with a perfectly straight face yesterday, Mrs. Augustine has always been in the habit of carrying considerable sums of money in a shoe. She has done so once a safe and convenient place for it. But the other day the shoe—her right one—needed repairs. She was in a hurry and when she took it off it was with entire forgetfulness of the shoe which she had previously strapped in a bit of paper and tucked into the shoe.

Mrs. Augustine took it to the shop of Dick Michaels, near her home, to be mended. She was not till some hours later that she remembered the money. She hastened to the shop, but Michaels did not hand her any little packages with a lot of money in it. Instead he courteously informed her that if she kept her money in a shoe it was a different shoe from any he had ever seen. He had never seen her money.

There was a decided difference of opinion on the point, and Mrs. Augustine appealed to Deputy Sheriff Haller. A visit to the prosecutor followed the case of Michaels, who will be told in Police Court Monday.

FAME WINS PATIENT.

Having heard of the wonderful surgical operations performed by the police doctors at the Receiving Hospital, J. W. Furnival, a farmer, living near Hollywood, drove all the way to this city yesterday to obtain treatment for his right foot, which had been crushed by a gangrenous toe. His refusal of medical aid several times along the road, declaring that no one but a police surgeon could save his toes from amputation, was a decided surprise to the police surgeon who made arrangements to return to his home this morning.

FOURTEENTH-STREET SCHOOL.

Love of hats, dainty summer dresses and articles in woodwork, from match safes to sideboards, dressings and water color, formed an unusually fine exhibit of students' work at the Fourteenth-street school yesterday. The exhibition was held in the auditorium, and the tasteful arrangement of flowers and of the exhibit itself made a pretty picture. The orchestra, made up of the members of the First Presbyterian Church, attracted quite an audience last evening.

The director of the society was Frank Shackelford, and the accompanist Miss Fannie Price.

Selections from Gounod, Barby and Rossini were first heard, followed by Mrs. Grace Bishop played a piano solo, "Pierette," of Camille Saint-Saens, in a very charming manner. The singing of several of the ancient folk songs of Sweden; Miss Jennie York recited Tennyson's "Hughes Song," followed by two numbers by the chorus.

Rev. Edward Campbell sang Robyn's "Answer," Frank Shackelford "In Old Madrid," T. R. Kelley played "Perfect Day," solo, cornet, and the evening was concluded by "The Radiant Morn Hath Passed Away," of M. J. Davis.

The success of the first recital will no doubt induce the Choral Society to continue its interesting work, and the members of the group, after the encouragement received last evening.

BEEHIVE HORSES. (LOCAL CORRESPONDENCE.)

SANTA ANA, June 5.—One horse is dead and another dying from bee stings received last evening. The team which belonged to Charles Roberts, a rancher of Peralta, he was driving by Frank True's apiary, where bees were robbing the stands, when the infuriated insects attacked the horses. The horses screamed in agony and used their fore feet in efforts to rid themselves of the bees. They were finally driven from the apiary. One of the horses died within two hours.

GLENDALF WATER VOTE. (LOCAL CORRESPONDENCE.)

GLENDALF, June 5.—A mass meeting of citizens voted 98 to 46 to night that the City Trustees recall the water vote.

Up and Down Broadway. STAGE FOLKS GIVE PARTIES.

Helen Le Cain Hostess at Birthday Rag.

Peggy O'Neil Sees Movies in the Making.

Noted Thespian Trio Head for Bear Valley.

BY GARDNER BRADFORD.

Two parties nearly broke up two shows yesterday, but lest some one worry, let it be said that both shows never were put over with more spirit than last night.

One was at the Baker, where Helen Le Cain of the "Knight for a Day" company set 'em up for the bunch, her excuse being a real or alleged birthday.

To be sure, the rehearsing of Kane nearly spoiled the party, as she simply had to get in trim, but the boys got over in time to trim Bunch at Fool, and had it not been for Daphne Polard, said Bunch would have quit the party hatless and coatless.

Daphne, however, started the rag a going, and then slipped out for a dinner engagement, leaving the door to Fred Stanley, who did his "Police on the Cay Tracker" with even more than his ordinary natural abandon.

Really, you couldn't tell just what did happen without betraying family secrets, but that everyone had a grand time goes without saying.

The other party, if more sedate, was equally interesting. John Blackwood, who is about to open his Jardin de Dana, took Peggy O'Neil, Katherine Kelly, friend of hers from Buffalo, and Col. Roddy, manager of "Peg," out to the New York Motion Picture Company.

Here the party were the guests of Tom Ince, who last broke into the limelight at the Majestic with his "Mr. Aladdin." Tom heads the picture company.

The affair brought to light the fact that Miss O'Neil, who is a native actress herself, having worked for a Philadelphia company.

The western idea was new to her, however, and she had quite a time getting acquainted with the cowboys.

BOND ISSUES
IN PROSPECT.Pasadena Needs a Library
and School Building.Awaits End of Fiscal Year
to Learn Deficit.Story of Utah Accident Is
Told Boy's Mother.

PASADENA, June 5.—Pasadena is facing one hard issue and, if the desire of some is carried out, two, in the near future. It was rumored yesterday that the formal call for the proposed school bond election will be made by the Board of Education at the end of the current month or the first of next. The figure will probably be \$100,000.

Those who are urging the construction of a new library building would have such bonds also voted on at an early date. An agitation for a \$100,000 bond issue for this purpose in the near future has been begun.

The election will come at the end of the fiscal year. Superintendent of Schools Rhodes said yesterday that the law does not permit of the board's calling an election to clear up a deficit until it is shown just what the deficit is, and no better way out of the dilemma, that I can see, than to call an election.

"The point, as I understand it," said Supt. Rhodes last night, "is that a deficit cannot be fixed upon until it actually exists, and of course it does not really exist until the end of the year. There is no better way out of the dilemma, that I can see, than to call an election."

ALL WERE IN DANGER. The companions of Woodward, who he knew transcontinental Automobile trip sorrowfully returned to Pasadena with the body yesterday evening. They were met at the station by the bereaved mother and there they told more about the accident than had come by wire.

While they had not mentioned the fact in their telegram, they narrated yesterday how all but one of the party were pinned under the big car when it skidded and rolled over in a creek near Park City, Utah. G. I. Hart was the only one who was not imprisoned in the water and he escaped away at the heavy machine with might and main fearing for a time that all of the others would drown before he could get them out. As fast as one was freed he helped Burke drag the others, until only young Duke remained under the car. Him they could not free. He is believed to have been killed almost instantly. Joseph Hart was the last to get out from under the car and his life was only saved by one of the others who had the foresight to hold the man's chin steady, he being too weak to do so himself.

The father of Ivan Ellis, another of the party, had come from Ventura to see his son and was also at the station. The funeral of Duke will be held at the home of his mother and father, Mr. and Mrs. Frank May, No. 101 Winona avenue, at 3 o'clock this afternoon.

CITY BRIEFS. City Auditor and Assessor Print, who is making a count of the automobiles owned by residents of Pasadena, has already counted 2960. He estimates that there must be at least 100 more.

Mrs. Ross L. Whitmore, who had been a resident of Pasadena for two-and-a-half years, died Thursday night at her home, No. 318 East Colorado street. She leaves a son and daughter, Douglas L. Whitmore and Miss Anne L. Whitmore, both well known in local musical circles. Funeral services will be held at the residence of the son, No. 495 Douglas street, at 10 o'clock this afternoon.

The annual banquet and twenty-anniversary celebration of the North Pasadena Methodist church was held last night.

The police yesterday recovered and returned to its family at watch that was stolen a year and a half ago from the late E. R. Fendition, who was a resident of Pasadena. It was taken from his pocket on a street car. The owner's name was engraved on the inside of the case and the thief recovered the watch in Los Angeles under that name.

VENICE, June 5.—The great Elks' gambol tonight is the fourth and next to last day's fun of the big carnival. Tomorrow night the event closes with a monster festival of merry-making. The board already knows where it stands, but the end of the fiscal year will make the deficit a reality and make possible the call for an election.

"The point, as I understand it," said Supt. Rhodes last night, "is that a deficit cannot be fixed upon until it actually exists, and of course it does not really exist until the end of the year. There is no better way out of the dilemma, that I can see, than to call an election."

SENTENCED BOTH

for Three Years.Republican Campaign Plans
Include Big Speakers.

SAN BERNARDINO, June 5.—As Angus Weber of Los Angeles was being sentenced to three years in San Quentin by Judge F. F. Oster on his plea of guilty to a charge of wholesale chicken stealing, his brother, F. E. Weber, who has secured a similar plea for the same offense, was married in the County Jail this afternoon to Miss Adeline May Wilson of Los Angeles.

The arrest of the brothers, a month ago, following an automobile chase at night from a poultry farm, interfered with the wedding, which had been planned for a few days later. Justice of the Peace G. M. Pittman officiated at the ceremony through the cell bars, for the bride joined hands with the groom through the door of his cell in the felony department.

The groom will appear in court for sentence on Monday, and he expects to secure a parole, it is said. Angus Weber was the leader of the gang of thieves that robbed hen roosts in almost every city in the west end, according to the officers.

After robbing a China farm, the Weber brothers and a man named Vasquez were arrested near Pomona. Their automobile was loaded with fancy poultry for Los Angeles markets, but a squawk from one of the captured birds led to their undoing.

REPUBLICAN CAMPAIGN. Prominent men of the nation will be in this city during the summer in the interests of the Republican campaign, a statement was made at an announcement at a meeting of the Young Republicans Club. Such figures as Gov. Hadley of Missouri, Senator Borah of Idaho, Senator Cummings of Iowa, Senator Bristow of Kansas and others, will speak here under auspices of the club.

This hustling young organization, which already boasts a membership of several hundred young men, will be expanded and its precinct work is to be started at once.

HITS AND RUNS. When his wife filed suit for divorce on grounds of non-support, Charles N. Savinovich, a waiter, filed a sensational answer and then fled to South America. Apparently he has entirely forgotten legal matters and has caused family worries. It was found today that he was beyond the reach of an alimony order. Judge Oster granted the wife \$1000.

WOULD PROTECT FROM THE RAIN. A STORM-WATER DISTRICT IS PLANNED FOR ALONG THE SANTA ANA RIVER.

SANTA ANA, June 5.—A petition bearing the names of a large number of property owners has been filed with the Board of Supervisors, asking that the Anaheim storm water dyke the west bank of the Santa Ana River from the Santa Fe bridge at Yorba to a point a mile south of the Olive.

During the heavy rains of last winter the river threatened to do much damage to the property of the east bank and the ranchers on the east bank are not joined in this district.

NEWS BRIEFS. The two largest State inheritance taxes ever levied in this county have just been paid, \$14,191.94 by the estate of Dominico Oyharzabal, who was a pioneer stockman of San Juan Capistrano, and \$7180.66 by the estate of Joseph Goodman, who was a pioneer merchant of Fullerton.

S. R. Fitz, principal of the Garden Grove school, has been named by the Board of Supervisors as a member of the County Board of Education to succeed V. R. Brown of Huntington Beach of Santa Ana, who was appointed to succeed himself.

BLYTHE WOULD BECOME A CITY.

QUESTION OF WOMEN ENTERS INTO DESERT HAMLET'S QUALIFICATIONS.

RIVERSIDE, June 5.—The question of whether the town of Blythe is entitled to consider the matter of becoming a municipality has been left unsettled by the Board of Supervisors, after a petition for the holding of an election to submit the question of incorporation as a city of the sixth class had been presented by interested citizens.

The petitioners urged that the town had the necessary population of 500 to make an election possible, for the reason that there are 158 registered voters. Applying the ratio of four, the incorporationists had figures a population of at least 612 for the desert hamlet.

The members of the board reminded the petitioners, however, that the fact that with the women voting, such a ratio would hardly hold good.

REFERENDUM INVOKED. It only remains for Mayor Ford to sign a resolution now in his hands to cause another special election to be held in July on the question of the sale of a quarter block at the corner of Seventh and Almond streets for which the city is offered \$12,000.

The Council has adopted a resolution denying a referendum petition asked for the repeal of a resolution providing for the sale in question. The next step will be the adoption of ordinance calling an election, for five of the six members of the Council are disposed to have the question settled at once, rather than defer the issue until the next regular election, in the fall of 1915.

DRINKING BEER TO FIGHT
DISTILLED WATER TRUST.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

APT, June 5.—Owing to the high price of water here 700 Tatties, including several who have heretofore borne the reputation of being teetotalers having pledged themselves to drink nothing but beer during the next three months.

Distilled water in the Midway and Sunset Oil fields costs 50 cents per bottle. The bottle holds about five gallons of water. The average man will drink a 50-cent bottle of water every other day, or 25 cents' worth of water a day. Ordinary city water to the retail consumer costs 10 cents a barrel.

Falling to get the Consumers' Water Company to lower the rate during the months that the demand is so great, individuals made a canvass of the city and state that 700 men have agreed to lay off of water entirely for at least three months. By this means it is hoped to bring about a reduction in the price of water.

Detention Ward Overcrowded and Contract With State Provides for Asylum—Billiards and Pool for Pleasure of Old Soldiers.

SOLDIERS' HOME, June 5.—Under a contract with the California State Lunacy Commission, there were transferred to the asylum at Patton, a few days ago, five insane patients from the Pacific Branch Hospital.

Referring to that action, today, Gov. Darr said that increase in that class of patients at this place is taxing the capacity of the "detention ward," a building provided for members so afflicted.

Because of the impending dilemma, a move for relief was begun last February, and an extended correspondence involving officers of this branch of the board of managers N. H. D. V. S., the United States War Department and the California State authorities, has just culminated in the contract whereby excess inmates of this branch shall be cared for in the State asylum, conditional upon payment by this branch of transportation and board of those transferred; the same to be paid from funds provided therefor in the general appropriation.

NEWS NOTES. In order to contribute to the amusement of patients in the hospital, a billiard and pool room and a cardroom have been fitted up, finished in cheerful colors and fully equipped with the latest appliances.

E. B. Leachman, retiring superintendent of the home laundry, was presented by the employees of that department with a gold watch-chain and charm, as a testimony of their esteem. Leachman had been in charge for six years. He is succeeded in office by A. F. Thomas, a veteran of the Spanish War.

MASSIVE WEIGHT CRASHES TO FLOOR.

WIRE CABLE BREAKS AND LETS METAL BLOCK FALL IN THEATRE.

MONROVIA, June 5.—Consternation was caused today among the workmen hanging the new steel curtain for the High School open-air theatre, when a 600-pound weight snapped its cable and fell from the flies, crashing through the heavy planking of the stage floor as if it were paper. No one was beneath the mass of metal.

The wire cable broke when the weight was being lowered to the floor. Two 600-pound weights are used as counter-balances for the new curtain, itself of steel and built upon a steel framework. Before the curtain is finally hung it will be inspected by the architects of the High School.

It is probable that the weights and cables will be eased in, so that should a cable snap at some future time the iron will fall inside the boxing and not endanger the lives of any who may chance to be upon the stage.

NEW TEACHERS COMING. Supt. T. E. Thompson today announced the names of a number of new teachers who will come to Monrovia next autumn to fill vacancies in the grade and High School faculties caused by resignations of this year's instructors. Among the new teachers will be George H. Bell, at present teaching in Escondido, who will succeed Miss Florence Hallam as instructor in science.

That present instructor in the preparatory department of U.S.C., who will come to Monrovia High as mathematics instructor, Miss Edna W. Chess of this city, who succeeds Miss Edna Newby as head of the department of drawing, Miss Ethel M. Berry of Monrovia, now teaching at San Gabriel, who will enter one of the grades, and Miss Annie G. Ardis, at present in the Calabasas, who will also be one of the grade instructors.

CALEXICO, June 5.—Disclosed were today which indicate that two men arrested here last night on a charge of smuggling are members of a large San Francisco opium ring, and that they had made preparations to carry a large amount of the contraband to the Bay City for distribution. Search today of the rooms of the two men—James Fagan and Muldoon, alias "Doc"—revealed the finding of two opium cases and other articles which indicate that they had just begun operations here and that they had intended to carry forward their work on a broad scale.

Information came to Deputy Collector of Customs O. C. Mendenhall that the two men were buying up in large quantities in Mexico, and that they had well-laid plans to ship the opium to San Francisco to dispose of it.

It became known today that Fagan and Muldoon were arrested in Calexico by Mexican officials and as a result of the arrest of the two men, the construction work on one of these tracks was finished Thursday and the tracks are being laid with heavier steel and twenty ties are being used to every thirty feet of track instead of the usual eighteen ties.

JAW OPERATION. John H. Fancett, 32 years old and son of Asa V. Fancett, No. 113 North Louisiana street, who has been in an auto when the driver of the car ran off an embankment near San Diego three weeks ago, will undergo an operation in the Clara Barton Hospital in Los Angeles today.

Fancett, with three companions and the chauffeur, were on their way from San Diego to the Imperial Valley when the accident occurred, and all were injured. The car was transferred to the Imperial Valley when the accident occurred, and all were injured.

MAYOR JONES RESIGNS. SIERRA MADRE, June 5.—After seven years of office, Mayor C. W. Jones has resigned from his official position. His resignation was forced upon him on account of his heavy business interests. During his incumbency Mayor Jones made many friends by his interest in civic matters. Although his political enemies have fought him on many issues his ability has never been questioned. He devoted much of his time to his official position, faithfully discharging the problems that loomed up, and was leader in movements of importance. His handling of the water proposition has been highly commended by many men in public life. Mayor Jones could not stand for adverse criticism, was over sensitive on this point and took many dice flings against taxpayers and citizens as personal attacks.

SENIORS IN RUNAWAY. COLTON, June 5.—A noisy demonstration of school-yells served to startle the team of horses attached to the big hay rack that was carrying the members of the senior class of the High School to the ranch home of one of their number, Ralph Crawford, at Grand Terrace. The team, a wienie bake on the hilltop, and for a time it looked as though the city might be minus a thorough class of cattle. For ten blocks down Eighth street the frightened animals bolted, crowding the Southern Pacific tracks less than half a minute ahead of an incoming train, every senior lying flat on the bed of the wagon, but ready to jump at a moment's notice. At the turn at O street Mr. Crawford, Jr., managed to control the horses. The police and other observers of the runaway followed by automobile.

ORDERED ACROSS. On the other side, they were arrested and informed that they were to stop and facing them was Inspector Rodney Clarke and Immigration Inspector Webb arrested last night and took them to the County Jail at El Centro.

When the men made their way to the County Jail at El Centro, they were found to have a San Francisco bank, bore the name of John Muldoon, and the man's accent lends color to the story. Effort will probably be made to obtain possession of the contents of the safety deposit box, it is believed that it will throw light on the affair.

MRS. EVARTS
IS CONVICTEDSan Francisco Club
Guilty of Extortion.Jury Reaches Verdict
Than Three Minutes.Accuser and Accused Jo
Hysterical Sobs.

SAN FRANCISCO, June 5.—A jury took a Superior Court jury less than three minutes today to find a woman guilty against Mrs. Lillian Evarts, clubwoman and former member worker, charged with extortion. When the verdict was read, Evarts burst into hysterical sobs, which she joined by Mrs. V. E. Holland, her accuser.

Mrs. Holland recently prosecuted against a man charged with extortion, and she was acquitted. The case was settled on the spot of \$1000 by the accused. Mrs. Holland paid her share, demanded \$500 as her share, became so insistent, said Mrs. Holland, that the police was called. Mrs. Holland paid her share, demanded \$500 as her share, became so insistent, said Mrs. Holland, that the police was called.

Information came to Deputy Collector of Customs O. C. Mendenhall that the two men were buying up in large quantities in Mexico, and that they had well-laid plans to ship the opium to San Francisco to dispose of it.

It became known today that Fagan and Muldoon were arrested in Calexico by Mexican officials and as a result of the arrest of the two men, the construction work on one of these tracks was finished Thursday and the tracks are being laid with heavier steel and twenty ties are being used to every thirty feet of track instead of the usual eighteen ties.

JAW OPERATION. John H. Fancett, 32 years old and son of Asa V. Fancett, No. 113 North Louisiana street, who has been in an auto when the driver of the car ran off an embankment near San Diego three weeks ago, will undergo an operation in the Clara Barton Hospital in Los Angeles today.

Fancett, with three companions and the chauffeur, were on their way from San Diego to the Imperial Valley when the accident occurred, and all were injured. The car was transferred to the Imperial Valley when the accident occurred, and all were injured.

MAYOR JONES RESIGNS. SIERRA MADRE, June 5.—After seven years of office, Mayor C. W. Jones has resigned from his official position. His resignation was forced upon him on account of his heavy business interests. During his incumbency Mayor Jones made many friends by his interest in civic matters. Although his political enemies have fought him on many issues his ability has never been questioned. He devoted much of his time to his official position, faithfully discharging the problems that loomed up, and was leader in movements of importance. His handling of the water proposition has been highly commended by many men in public life. Mayor Jones could not stand for adverse criticism, was over sensitive on this point and took many dice flings against taxpayers and citizens as personal attacks.

SENIORS IN RUNAWAY. COLTON, June 5.—A noisy demonstration of school-yells served to startle the team of horses attached to the big hay rack that was carrying the members of the senior class of the High School to the ranch home of one of their number, Ralph Crawford, at Grand Terrace. The team, a wienie bake on the hilltop, and for a time it looked as though the city might be minus a thorough class of cattle. For ten blocks down Eighth street the frightened animals bolted, crowding the Southern Pacific tracks less than half a minute ahead of an incoming train, every senior lying flat on the bed of the wagon, but ready to jump at a moment's notice. At the turn at O street Mr. Crawford, Jr., managed to control the horses. The police and other observers of the runaway followed by automobile.

ORDERED ACROSS. On the other side, they were arrested and informed that they were to stop and facing them was Inspector Rodney Clarke and Immigration Inspector Webb arrested last night and took them to the County Jail at El Centro.

When the men made their way to the County Jail at El Centro, they were found to have a San Francisco bank, bore the name of John Muldoon, and the man's accent lends color to the story. Effort will probably be made to obtain possession of the contents of the safety deposit box, it is believed that it will throw light on the affair.

CITIZENSHIP FOR A HINDU.
Student at University of California Held to Be a Caucasian.
SAN FRANCISCO, June 5.—Taraknath Das, a Hindu post-graduate student at the University of California, was admitted today to citizenship. He is the fourth Hindu to become an American. Federal Judge M. P. DeLoach, in ruling on his case, held that Hindus of Das's caste are conceded by precedents to be Caucasians. Das is a graduate of the University of Washington, and chairman of the committee in charge of the world's student conference to be held at the Panama-Pacific Exposition in 1915. He is a delegate to the Lake Mohonk peace conference on international arbitration.
only other survivor of the American's who left the vessel at Knappton, Wash. The suit has been brought against the Pacific Shipping Company.
HINDU'S PROPOSAL TURNED DOWN.
PILGRIM ORIENTALS REFUSED PERMISSION TO LAND, EVEN TEMPORARILY.
VANCOUVER (B. C.) June 5.—Gurdit Singh, leader of the Hindus, submitted a proposal to Immigration Superintendent Reid today to solve the deadlock whereby the East Indian laborer on the Komagata Maru are kept aboard ship.
By the payment of \$15,000, now due, Gurdit Singh can retain the steamer for three months, and he wishes to do if the immigration department will agree to certain conditions.
These are that the party be allowed to come ashore while the ship is unloaded of her coal cargo and closed, and given time to load a cargo of lumber for the return trip. Gurdit and the other Hindu leaders will arrange to feed and house the immigrants in any detention building the officials may select, and over which they may place guards.
During this interval the Supreme Court proceedings and appeals against the regulations may be disposed of.
Supt. Reid, in rejecting Gurdit's proposal, said:
"The Hindus will not be allowed ashore, even temporarily, on any pretext whatever."
It was officially stated this morning that the Hindus had not broken the hunger strike which they began on Wednesday.
FOUR MONTHS' RECORD.
Officials of Young San Francisco Automobile Club Charged. When Wrecking Is in Short Order.
SAN FRANCISCO, June 5.—A tale of rapid and spectacular financing of a petition in involuntary bankruptcy, filed in the United States District Court, and directed against the Automobile Club of San Francisco. Among other allegations are that B. A. Goodman, secretary, and B. W. A. Goodland, vice-president and majority stockholder of the club, mismanaged and wrecked the club in the four months' time it was incorporated for \$10,000. They were accused in the petition of absconding with \$1000 in cash belonging to the club; with uttering bad checks to the extent of about \$1000; with running credit accounts to the extent of more than \$25,000 with San Francisco merchants, and with getting off with cash bonds to the amount of \$7000, posted as guarantees by the many employees they hired. The petition states that Goodman and Goodland withdrew large sums from the club's finances, and that they kept only a rough entry book, in which they "falsified entries."
The two disappeared, it is said, May 19, and their wives were left behind.
Warrants for their arrest were issued May 20, and on that day the club made a general assignment of its assets for the benefit of the numerous creditors. The club was formed the first of the year, and elegant quarters were established, where wine dinners sometimes were held. Nearly 100 members had been drawn into the organization.
The petition was filed by former employees of the club, who were unable to cash the checks they received in payment, they assert. The petitioners are:
Frank Locke and L. F. Halloran, former garage superintendents; R. H. Maurer, former superintendent of the service station, and John J. Preston, former head steward.
Mrs. B. W. Blanchard and Mrs. B. A. Goodman asserted today that their husbands had left them penniless and that no word had come from them since they left the city, following the issuance of warrants charging felony embezzlement. Both women profess loyalty to their husbands and assert that they did not have a dollar between them when they left.
"When this thing is straightened out it will be found that others are guilty and they are innocent," said Mrs. Goodman.
RECORDEE'S ACCOUNTS SHORT.
County Official Who Attempted Suicide at Oakland Apparently Owes Twelve Hundred Dollars.
FAIRFIELD (Cal.) June 5.—A shortage which he estimates at \$1200 was announced by Dist. Atty. J. M. Raines today in the accounts of T. V. Corcoran, County Recorder who attempted suicide in Oakland yesterday by cutting his throat with a razor. The District Attorney said the Recorder had not made any settlement with the Auditor for three months.
An expert will be put on the books, and no grant jury action is contemplated unless Corcoran's improvement appears certain.
The District Attorney said that apparently recording fees had been diverted.

WOULD BUILD FOR ITS OWN.
LONG BEACH NAMES MEN TO PUT UP AUDITORIUM.
Preliminary Plans Being Arranged to Effect Purpose—Police Commission Objects to Wording of Resignation—Former Secretary of Treasury Talks to City.
[LOCAL CORRESPONDENCE.]
LONG BEACH, June 5.—On the site of the damaged auditorium, the scene last year of a deplorable accident, Long Beach will erect the finest series of convention and pleasure halls on the Pacific Coast. Scorning the offer of a syndicate to erect a large edifice and lease it to the city, clubs, boards and associations have joined to boost for a bond issue to pay for the project.
Henry F. Harbour, president of the Realty Board, in accordance with authority recently vested in him, today named committees from the various civic and religious societies to take up the preliminary work. These committees will be known as the Auditorium Commission, and will meet for the first time Monday afternoon in the City Council chamber.
The commission is made up of the following persons: Ministerial Association—Rev. H. K. Rasmus, Rev. F. M. Rogers and Rev. Henry K. Booth; Federated Brotherhoods—John H. Pearce and J. A. Crowe; Ebell Club—Mrs. J. M. Edgar; Woman's City Club—Mrs. Harry Aylsworth; Business Woman's Club—Mrs. May B. Moore; Chamber of Commerce—A. B. Rominger and Eastman; Realty Board—H. F. Harbour and R. B. Riteberg; Merchants' and Manufacturers' Association—W. B. Bennett and Richard Loyne; Building Trades Council—F. H. Faulstich and W. F. Mowry; Apartment-house and Hotel Association—B. F. Durkee; City Club—Prof. Melvin Neal; Long Beach Assembly—W. J. Morrison.
OBJECTS TO FORM.
The Police Commission has taken exception to the form of resignation submitted to them by S. W. Adair, former lieutenant of police, and demands that Adair either stand trial or retract. Adair refuses to take back his words and all the commission can do is to accept the resignation in its present form.
Adair told the commission that in resigning he acknowledged no guilt of the charges preferred by Mayor Wheaton, and that he was not willing to sacrifice his future on the altar of hate and prejudice. He stated in the resignation that if he thought for a moment that he would get a square deal he would stand trial. The hearing of Detective Cervantes, the last of the quintette of suspended officers, will begin at 4 o'clock Monday afternoon.
FORMER SECRETARY.
Hon. Leslie M. Shaw, former Secretary of the Treasury, is a guest of Long Beach. He arrived in the city shortly after noon today from Los Angeles and registered at Hotel Virginia. At 4:10 o'clock this evening he was a guest of the City Club. G. Mortimer Rose, president, at dinner. This evening he delivered a speech at the Forum on civic and economic topics, dwelling at length upon the canal toll question.
"HIGHER TRIBUNAL."
Fred Raab, husband of the woman who killed herself with a knife, after naming Walter B. Hill as the author of her troubles, stated today that he "was not through with Dr. Hill and a higher jury than the coroner's jury would try him." Asked to be explicit, Raab would say no more than he intended to take the matter up with higher authorities.
THE AGE OF FIANS.
They Pass Through All the Stages of Life in About Twenty Days and Are Unaffected by Refrigeration.
[Washington Post.] Important investigations upon fleas of late have been directed toward the discovery of how long a flea may live. This is more important, if possible, to discover about fleas than it is about mosquitoes. Fleas, too, are the carriers of many vicious parasites which disseminate all sorts of diseases.
The rat-flea of India, the Philippines, America and other parts of the world, is the source of bubonic plague. The fleas of the chipmunk, the chipmunk, the squirrel, the beaver and the prairie dog also seem to harbor plague bacilli.
The rat flea has been most carefully studied as to its length of life. It seems to pass through its infancy, school days and its maturity in the space of about three weeks. If the days be dark, dreary, damp and hot it lives its allotted span of life in ten days or less.
Frodo, Gautier and Rayhaud have just announced their experiments upon the flea that bites the rat in the British Isles. The experiments succeeded in keeping the militant English flea alive ninety days on some human blood serum.
This is an important discovery in view of the recent government notice that plague bacilli have been found in Havanna and other parts of the western hemisphere.
Moreover, these workers unearthed another startling fact. Fleas placed in ice chambers and kept for a long time around frozen food, and even after being kept for forty days, much to the surprise of the whole scientific world.
Dr. William Meill, an animal psychologist or "behaviorist," announces that the American rat-flea can jump away from the rat—its host—unwilling though it be—and live on air, water, vegetation, or nothing at all for at least one week. Then, like a barbed rider in the night, it hops upon the back of some unsuspecting innocent rat.
Thirty Years' Will Suit.
[London Express.] The death of Richard Davey of Wheel Buller, near Redruth, reopens a litigation which has been going on at intervals of over thirty years.
Nearly thirty-five years ago his uncle, Capt. John Davey, died at sea, leaving a will by which he bequeathed a year to Richard Davey and the bulk of his estate, valued at more than \$200,000, to Richard Davey's unborn child.
Richard Davey married, but never had any children, and for twenty-one years the estate remained locked at interest. At the end of which time it amounted to about \$90,000. Various attempts were made by Capt. John Davey's six sisters to break the will, and at the end of twenty-one years the court allowed the next of kin to benefit to the same extent from the income of the estate.
Capt. Davey's will provided for his estate to go to charity in the event of his nephew having no son, but another attempt will be made to have it declared void.

She was secluded in this house until last night, when she prevailed upon to return to her father's home. She went with her friends.
Today she will be available to the police.
Her name has been written in police records many times, beginning with a flight to Santa Barbara as one of a party of two couples. The alarm was raised at that time that she had been stolen.
Next she figured in the sensational flight of Attorney Riccardi, the amorous Italian barrister. It developed that Riccardi had engaged in a fist fight with his assistant regarding who was to take the attractive girl to dinner.

He is at his home, but his wife refuses to admit that she will countenance a reconciliation. She provided that Watson was still undecided last night whether or not he would permit the darning Keiths to call his residence home.
CORCORAN CASE CRITICIZED.
Solano Recorder, Who Attempted to End His Life, in Bad Shape in Hospital.
[BY A. P. NIGHT WIRE.]
OAKLAND, June 5.—T. V. Corcoran, Recorder of Solano county, who attempted last night to end his life by cutting his throat with a razor while under treatment for pleurisy at a local hospital, was reported in a critical condition late tonight. This case is believed in Fairfield, the Solano county seat, to have been due to financial responsibilities.
Corcoran is said to be \$1145 short in his accounts, and a few days ago was called upon by the Board of County Supervisors to make good that amount.
It was first reported that Corcoran attempted suicide while delirious. Dr. Hester M. Sutherland, chief resident physician of the hospital, however, says he was considered in a normal state of mind.
Cat Bite Causes Death.
[SPECIAL FOREIGN CORRESPONDENCE.]
LONDON, May 25.—"Accidental death" was the verdict returned at an inquest at the residence of Mr. George Edward Cooke, 71, a retired commercial traveler. He was stated to have died through being bitten by a cat. He toiled the animal in the dark and it bit his hand and he died at the Royal Infirmary of blood-poisoning.

LONDON, May 25.—The Rev. C. A. Alington, headmaster of Shrewsbury School, was struck in the face by a fast ball when he had made forty-two for Shrewsbury against the school eleven. He was knocked down unconscious. He was unable to resume play or preside at an educational meeting later in the evening.
Woman and Daughter Found Dead.
[SPECIAL FOREIGN CORRESPONDENCE.]
LONDON, May 25.—A tragedy for which no reason can be assigned occurred in the home of a Coventry printer. While he was at work a girl, aged 27, and his 26-month-old daughter lying dead in the house with wounds in the throat. In Mrs. Rose's case the wounds were self-inflicted.
FISH HAVE NO MERCY.
But Turtles Are of Gentle Disposition and Will Submit to Considerable Inconvenience.
[Kansas City Star.] Place a number of different kinds and sizes of turtles in a small space and the forbearance which is exhibited might well be a lesson to man.
Big and little will crawl about, heedless of each other's existence, and secure from harm. A small painted terrapin, for instance, will clamber rapidly over the head of a vicious snapper and the chances are that the latter will merely duck its head or move to one side so that the claws of the former will not injure its eyes. There are instances of a man in a look of patient resignation or sullen submission, which would immediately change to savage resentment and fierce attack if a man made a hundredth part of the commotion.
These creatures appear to be able to distinguish between "no offense meant" and intentional annoying. While they submit to the one, they will fight over the other, if the fight has not been previously thrashed out of them.
Carnivorous fish seem to be natural bullies. In a group occupying a restricted space there is nearly always one fish that will torment the others. Nor is it the largest necessarily. There were for months two small-mouth bass and nine large-mouth bass confined in the same tank. The smallest of the entire party, a small-mouth bass of nine inches, hectorated the others continually and succeeded in reserving an entire half of the tank for himself. The others were obliged to huddle themselves in a far corner of the remainder of the tank. The ten fish submitted to this treatment beyond the prohibitive line the autocrat would push the venturesome fish back to its quarters. When, after a lapse of some months, the bully died, the fish that had been its humble subject took the leadership and ruled just as absolutely. But all such despots of the fish world do not avoid violence as did this particular specimen.
Some of them exercise this power with relentless cruelty and go to the

Nature Erects a Monument.
[Baltimore American.] It is seldom, perhaps, that nature erects a monument to a person's memory, yet in a small cemetery a few miles east of Nashville, in Brown county, may be found an object bearing that distinction.
More than seventy-five years ago a man named Allcorn became a resident of Brown county, and for several years lived near Salt Creek, in the eastern part of the county. While residing there Allcorn met with an accident which resulted in his death, and he was buried in the cemetery near his home.
The coffin was hewed out of a part of a poplar tree and made into two sections. A few years later a small sprout began to shoot from the crude coffin, and not long afterward a small poplar tree began to spread its branches over the grave.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The Board of Public Works has assumed the attitude of arbitrator in settling the manner in which the division of garbage between the Crouch concern and the V. D. Reduction Company shall be handled until the city council collections.

Unless an emergency clause can be attached to the ordinance providing for an increase of 35.5 per cent. to the city revenues from liquor license fees, the city will have to issue licenses for the first month of the fiscal year under existing schedules, and thus lose one-twelfth of the proposed increase.

Indications point to a change in attitude on the part of the Park Commission, so that the special commission appointed to take charge of the erecting, the management of the Greek Theater and the observatory in Griffith Park may proceed with its duties.

Although scored, a wife in the divorce court yesterday asked only half of the community property she might have had, all if she had alleged a grave charge of her husband that she concealed to save his reputation, at his request.

In a will that leaves money for church work, a string is attached to a bequest of \$5000 to a grand-daughter, who must be a present student and worthy girl till she reaches 20 years of age if she is to receive the money. The will was filed yesterday for probate.

GARBAGE MIX IS SORTED OUT.

CROUCH TOLD HE MUST HANDLE CITY REFUSE IN AUGUST.

Practical impossibility of New Plant Being Ready Then, So Contractor May Have to Pay Others as Disposal of Municipality's Daily Waste—Works Board as Arbitrator.

Very clearly it is indicated that the subject of garbage disposal is yet to furnish substance for numerous newspaper narratives. Action of the Board of Public Works, months ago in awarding to C. D. Crouch the contract for handling the daily refuse of the city, has not meant the end of this subject.

Crouch contracted to pay the city \$11 cents per ton for all of the garbage, and made plans for the erection of a reduction plant at Leonard street and the Santa Fe tracks, in the southeastern part of the city. He was allowed ten months within which to erect the plant and this time limit will expire August 27.

The Board of Public Works yesterday decided to formally take over the city's garbage on that date, and to notify the V. D. Reduction Company that after that date it will not deliver to this concern any further garbage without the arrangement therefor being made with Crouch.

Members of the board during the present week have made a personal inspection of the progress of work at the plant site, and they are convinced that it will be a physical impossibility for the plant to be in readiness for operation by August 27. But that is Crouch's lookout. He has up a \$16,000 bond at the harbor. Reduced boats will be used for fire-fighting purposes along the waterfront. The committee allowed \$6000 for additional fire boats for an engine-house site at Rose Hill, and \$3000 for a similar site at Wilmington. Provision was made for seventy more fire hydrants in the Hollywood district. The request for an allowance of \$4000 for salaries of two additional battalion chiefs was denied.

WIFE DECLINES TO PROSECUTE ON SERIOUS GROUNDS.

Alleges Desertion and Gets Decree.

Could Have Had All Community Property Had She Alleged Unfaithfulness, But Is Content With Share Given by Court.

A woman scorned, but willing to cover her husband's sins with the cloak of charity, Mrs. Edith O'Reilly was content to obtain a decree of divorce on the ground of desertion, receiving only half of the community property, when she could have had all of the property by proving his unfaithfulness.

"I am satisfied with half," she told Judge Monroe yesterday. "I did not bring suit on this fact. I did not bring suit on the other ground because he said it would ruin his reputation. I desired to let him off easy."

Cornelius O'Reilly, the husband, who holds a responsible position in a large business house, made no appearance. There was no trace of bitterness in the words of Mrs. O'Reilly, whose face plainly showed the suffering she had undergone. She stated simply that he had tired of her.

"He told me if I did not go away he would. I asked him in what way he had offended him, and he said he wished to lead his own mode of life."

"How have you supported yourself since you separated?" asked the court.

"Oh, he has always provided for me," was the reply, in a pleased way for reasoning point. "I have been able to support myself on the ground of unfaithfulness. I should have given you all of the property instead of half, if you had alleged that he was unfaithful."

FOR GREEK THEATER PROJECT.

There is good prospect that the attitude of the Park Commission in opposing the entrance of the special commission for the Griffith Park City Council the name of Mrs. Rodrick MacKay, which becomes effective July 1. Mrs. MacKay, a member of the Park Commission, stated that she had been seriously considering the situation and was inclined to do what he could to change the attitude of the Park Commission.

He assured Whiffen that he would work with the other members of the board to bring about this result.

What License Fees.

The City Council yesterday adopted the report of the Harbor Committee on what license fees for the next fiscal year and instructed the City Attorney to prepare the necessary ordinance. The basis of these license fees is 5 per cent. of the gross revenues, according to the concern's own statements. The present rates are based on 10 per cent. of the gross receipts, but strong objection was raised by the harbor operators to this basis.

The Council also adopted the schedule for wharf and handling charges at the harbor.

To Appoint Mrs. Richardson.

Mayor Rose announced yesterday that on June 20 he will send to the City Council the name of Mrs. Rodrick W. Richardson as his appointee to the library board to fill the vacancy caused by the resignation of Mrs. Shelley Tolman, which becomes effective July 1. Mrs. Richardson is the president of the Woman's Republican Club.

Goes to Old Country.

Roderick MacKay, superintendent of mechanical construction for the water department, will leave with his wife and two daughters today for a two months' trip in England and Scotland. They will sail from New York on June 13 on the steamer Oceanic, and expect to spend much of their time in and around Cambridge, Mr. MacKay's former home.

This is MacKay's first vacation since 1906. He has been in charge of important duties all through the construction of the aqueduct, and superintended the construction of the Monolith cement plant.

Bekins Still Absent.

The Board of Public Utilities held its regular bi-weekly session yesterday, but, as usual, Commissioner Martin Bekins was conspicuous by his absence. Bekins has attended only nine meetings of the commission since November, 1913. He manages to drop in just in time to save himself from self-decapitation through absence for consecutive days.

In discussing the situation yesterday Mayor Rose said:

"If Mr. Bekins had a proper conception of the properties and his duty to the city he would file his resignation immediately."

No Fire Boat This Year.

In its work of cutting down department estimates to meet the city's income, the Budget Commission yesterday decided that the fire department will have to get along for the ensuing year without the proposed \$100,000 boat at the harbor. Reduced boats will be used for fire-fighting purposes along the waterfront. The committee allowed \$6000 for additional fire boats for an engine-house site at Rose Hill, and \$3000 for a similar site at Wilmington. Provision was made for seventy more fire hydrants in the Hollywood district. The request for an allowance of \$4000 for salaries of two additional battalion chiefs was denied.

MOTORMAN ACCUSES WIFE.

William Ferguson is a motorman. Jessie W. Ray is also a motorman, and while they should be in fraternal bonds, they are not friends and the court came out before Judge Taft yesterday in Ferguson's suit for divorce from Winifred Mary Ferguson. He names Ray as the cause of the divorce.

Ray, he testified, banged his motorman's bell when he passed the Ferguson home. It had a gleeful ring, and she would rush to the window. "They waved at each other and blew kisses. This did not suit Ferguson and he and Winifred had a fight. He told him she did not care whether he approved of her conduct or not. She accused him of jumping at him with a carving knife. He put his hands on her and she gave him a bloody nose when she found it out. Then came the break-up. Many witnesses are waiting to be called to tell what they know for and against Mrs. Ferguson, who denies the charge. So does Ray.

MARRIAGE CARELESS.

ACTOR GIVEN DECREE.

Jack C. Vernon, an actor-manager, heard Leopold Jacobson, a motorman, having a merry old row back of the scenes, and when he hurried there as a peacemaker, Mrs. Jacobson gave him a bloody nose. This was the end of a marriage of two temperamental persons. Yesterday Judge Taft granted the divorce to Vernon. He said he employed Mrs. Jacobson as a motorman, and when he married her he knew she was a motorman. "When were you married?" the court asked Jacobson.

"In 1909," was the reply.

"No, that's a mistake; it was after the Jefferson-Johnson fight. I remember it by that scrap," said Jacobson.

"Decree granted," declared the court. "Kiss your wife only two months, you got what you deserved for being so careless."

ASSAIL SCHOOL BOYS.

ALLEGES ILLEGAL VOTING.

Hermann Vetter and Thomas E. Preston, for themselves and other taxpayers of Redondo Beach, are seeking redress through the courts for the alleged illegal voting of the \$150,000 High School bonds voted at the election on March 24 last, on the ground that seventy-five voters who voted the bonds were not registered.

The bonds are advertised for sale by the Board of Supervisors, who are named defendants with the Redondo Union High School district. They carried a two-thirds majority of seven, and it is alleged that if the illegal votes had been thrown out the bonds would have been rejected. Hartley Shaw obtained yesterday an order to show cause from Presiding Judge Wood, returnable before Judge Works, Monday.

APPRAISE PROPERTY.

NAME BROADWAY VALUES.

Values were placed by experts yesterday on the Williams and Mudd estate, and the property of the Cyrus Willard estate, in the city's suit to open Broadway from Tenth to Pico streets. The property owners, through the process of administration, Garvie left no will and yesterday his daughter, through Attorney Bradner, W. Lee, filed a petition for letters of administration. Garvie owned real estate valued at \$13,000 in Alhambra, Newport Beach and Balboa Island.

ALLEGES CRUELTY. E. Eva Lewis of the Pierpont Hotel, Ocean Park, who married Jack Arlington at Santa Ana in January, 1913, and at San Francisco the following September, filed a suit for divorce yesterday through Attorney E. A. Lane, alleging cruelty.

INJUNCTION DENIED. The injunction suit of W. F. Smith against William E. Bowles and others, to restrain them from constructing a store on the dance floor at the Hotel Harvard and Hobart boulevards, alleging a general building scheme, was decided against him by Judge Works yesterday. The injunction was denied and the court found that a general building scheme, as it related to the lot in question, was without foundation and void.

WHY THEY QUARRELED. Home looked good to James L. Brady one evening. He had come home tired. Mrs. Brady, who probably had been in the house all day, wanted to go to a dance hall. Brady objected, and the scrap was on. It was renewed next day on the same subject. She went to the dance hall, and he followed her. According to his testimony in the divorce court yesterday, she left him and never returned. The divorce was granted.

HITS BOTH WAYS. There was a climax to the divorce suit of Horace Worrall against Glen A. Worrall, tried by Judge Monroe yesterday. Several of the ministers of the New Hampshire against the New Hampshire Mining Company, owning four-ton lode silver-lead mining claims in Idaho, were subpoenaed to appear in judgment of \$10,000 for money advanced, and an order enjoining the exercise of any corporate power pending suit. It is alleged that the company is insolvent; that it has debts amounting to \$45,000; that there are \$5,000 shares of capital stock worth \$1 each that cannot be disposed of, and that there is on the property more than \$200,000 worth of lead and silver ore, whose gross value is more than that amount, and that the net value is more than \$100,000.

TEMPERANCE.

CONVENTION IS FOR DRY STATE.

SOUTHERN CALIFORNIA W.C.T.U. OPENS SESSION.

Prohibition Next Year in Whole Commonwealth slogan of Meeting. President, Democratic Cigarette Trade in Opening Address—Urges Canvass for "Dry" Votes.

With the slogan, "California dry in 1916," the Southern California W.C.T.U. opened its thirty-second annual convention in the First Congressional Church, yesterday morning.

The opening meeting was the occasion of several demonstrations by those who have the temperance cause at heart.

That the temperance workers will stop at nothing short of State-wide prohibition was the sentiment of the convention, which will continue for a week. There were close to 500 delegates in attendance yesterday, each of the eleven counties comprising the Southern California district being fully represented.

The morning session was taken up with the reports of the officers of the Southern California W.C.T.U. The statistics shown demonstrated the fact that the temperance cause is in better condition financially than at any other period of its existence. The report of the treasurer, Mrs. Sophia Wood Plimpton, was highly satisfactory, and was received with applause.

All the other reports of officers showed great progress in the movement to down "John Barleycorn." Several of the ministers gave brief reports during the afternoon session, after which the president, Mrs. Lucy S. Blanchard, read a telling address on the liquor interests.

She told the women that the liquor traffic was the women's fight and that the question of whether or not alcoholic liquors were to be driven out of the State rests with the women voters of California. She urged the women to make a house-to-house canvass for votes and to use every means in their power to get every vote possible. She denounced those who deal in time would come when the women could vote against the cigarette and drive it from the homes. She put the liquor and cigarette interests side by side and showed how they were in the same boat and openly prayed for their utter destruction.

Under the old method of holding time to keep him from the platform, the new treatment consisted in the women's air and oxygen into the lungs. It is believed that a large number of the patients who were dependent on the cigarette and cigarette interests were cured of their habit. After the instrument was used for nearly thirty minutes the patient was covered with a sheet and the head was held in a vise. The patient was held in a vise for nearly thirty minutes. The Mayor addressed the evening meeting in behalf of the city. He

stated that the vote of the would certainly help to the cleaner government.

During the afternoon and evening sessions several splendid lectures were rendered. The address of the day of the free exhibition of the Imperial Valley Chamber of Commerce at No. 609 South Broadway is such that it has been decided to continue the exhibition indefinitely, renewing with fresh spectacles the valley, as rapidly as possible.

Additional will be made of and other fowls and live well as dairy products and products possible to produce American "Valley of the Grapes" already ripe. The features of the exhibition are sweet corn twelve stalks on which ears were almost lost last year. A watermelon nearly twenty-five pounds, potatoes and Irish potatoes, and a large number of other products.

WASHINGTON BUREAU THE TIMES, June 8.—A detailed report from Vera Cruz, Friday, Fletcher's landing at Vera Cruz and the occupation of the whole city by the marines and sailors under command, was made public by the Navy Department today. It is the most complete account of what naval officers consider an admirably conducted operation. It shows that under the American flag the American forces themselves most creditably completed with ease all the tasks set out to do.

They appear to be two portions of Admiral Fletcher's report which the Navy Department suppressed for some unknown reason. Both have been taken from Southern States with Rear-Admiral Sir Christopher Craddock.
